From the Publisher ... If you've sent an item for publication recently and haven't seen it, I hope you understand that I've been shoehorning DXN since

last May or so, with DX and station statuses being the first priority, and I hope you'll understand why I had to hold Musings until next issue. DXN is printed in 4-page increments, of course, and I can't go above 24 pages without almost doubling the postage costs for each mailing. I also have to ration the 48-pagers to stay within the budget. Nevertheless, when NRC members are treated to really decent DX conditions and report to the appropriate columns, we'll run more 48-pagers to accommodate all the news. On the other hand: editors, when your columns run above six pages or so, please ration all non-DX items, if possible. (Actually, I love having this problem!)

A couple of DX tips: Mike Hardester reports hearing on Glenn Hauser's "World of Radio" that a TIS in the Tampa area on 1620, reportedly running 4 watts into a quarter-wave dipole, has been heard as far away as Massachusetts. DX'ers may call (613) 933-6009 to record a message. Thanks to former NRC member Artie Bigley of Orangeburg, SC for this tip to WOR. Also, Andy Ridgway of England reports that G. L. R. (Greater London Radio) 1458, 50 kW, is running a tape loop with a test tone and advisory to listeners to tune to stereo 94.9 FM, etc. The test tone might make it easier for DX'ers to ID.

Finally, next week's DXN (#9) will either be in the mail very early or late, depending upon whether the printer gets it to me on Nov. 24 or the next Monday (their office is closed two days for Thanksgiving).

DXChange ... John Hanz - 36 Orchard Dr. - Old Bridge, NJ 08857-1641, (908) 257-2881 would like to sell his Drake R8, in very good condition with original box and operating manual for \$760, shipping included ... Hugh Montgomery - 2797 Kinnett Road - Bethel, OH 45106, (513) 876-3115 before 10 pm EST, is offering his KJWA loop, in excellent condition, for \$260 postpaid.

From the pages of DX News:

50 years ago ... from the Nov. 20, 1943 DXN: The CBC had divided into two networks, the Transcanada net with CBL as the key station, and the Dominion net, with CJB as the key station.

25 years ago ... from the November 23, 1968 DXN: Russ Edmunds was getting ready to move to Buffalo, NY to become a production supervisor on a photo-finishing lab.

10 years ago ... from the November 21, 1983 DXN: Many stations were disappointed with newly-assigned post-sunset operating powers.

CALL LETTER CHANGES

Old call: New call:
1200 WNSS NY North Syracuse WKRL

Also, put the WLUP-1000 change to WMVP mentioned last issue on hold. Further extensive monitoring of the station reveals that they are using the call "WMVP" during the sports-oriented segments of their programming but still use "WLUP" at other times. We understand they have been negotiating with the existing WMVP on 1290 in Greenfield, WI for the call but since we have not yet seen a change applied for by the Greenfield station we have to assume that the official licensed call on 1000 in Chicago is still WLUP. Stay tuned.

MEDIUM WAVE RAMBLINGS

- Some real good Hallowe'en loggings have been reported. And included therein, are a couple of "Ghoulish" reports. Hi, I'm hoping your DX sessions this coming week will be something to "give thanks" for. And then, the Canadians have beat us Yanks at celebrating Thanksgiving. Me? I'm thankful for your reports. Keep up the good work, gang!
- Ken MacHarg writes to say he took note of my Trivia question a few issues back about the fact that the combined transmitter facilities of WFLA/WSUN - Tampa was the first licensed AM directional antenna. Anyway, Ken's doing research for a book on Radio History in Kentucky, and came across a pamphlet *WLAP, Through Sixty Years* by Lewis M. Owen, published in 1982. In it, the pamphlet says that back in 1931 WLAP (then of Louisville) wanted to change frequencies from 1200 to 1010 kHz and increase night power to 250 watts. They also petitioned the Federal Radio Commission (FRC) to modify the antenna system to a directional operation, placing the main radiation over Louisville. The request was granted, and a pioneering directional antenna effort was started. The transmitter was modified to Direct Crystal Control, realizing operating frequency stability of plus or minus 10 Hertz, improved from the industry standard of plus or minus 200 hertz. It was believed this improvement would eliminate concern, of the FRC and stations operating on 1010, of interference from heterodyning due to frequency drift. The directional antenna efforts achieved the desired results, but the FRC said to properly serve a city, the antenna and transmitter should be located near its center and WLAP's was on the extreme edge of Louisville. Within ten years this approach would be reversed and transmitter installations would have to be outside a densely populated area. Benefits of a directional antenna had been proven, though, and in a few short years would be used extensively by the industry. Ken adds that WLAP moved to Lexington in 1934. Great stuff!
- Any Utility gurus out there? Tom Bryant of Nashville writes to say he (and Doug Smith) cannot ID a sort of FSK/data transmission on 1719 kHz. Quite strong, and constant, all night. Daytime . . . unknown. Looped East/West. Any takers?
- Another new reporter debuts this week. Chris Knight from Longmont, Colorado checks in with some great loggings. Chris notes that he logged a KANR on 1340 with CNN Headline News, . . . but can't find it. Hot Dog! That baby is about 5 miles south of me (tower location) and licensed to Nampa, Idaho! Good report, Chris. Welcome aboard!! But please put your loggings in frequency order in the appropriate headings, as you see here. Thanks.
- Don't faint, but we have DX from The Editor-in-Chief! Call for the Raid. But I have to give him a 'C' in "Time Reporting" - hi hi.

660 WBLX AL Fairhope - 11/3 1743 - Fair, but alone on channel, with CLs, local ads, Classic 60s IDs and Motown oldies from the 60s and 70s. Change from UC. (BB-MO)

It may not be perfect ...

but the NRC Log, 14th Edition is, simply, the best there is because of your contributions. Why not make the updaters and 15th edition even better? Send all corrections and changes to Wayne Hetten - 4131 S. Andes Way - Aurora, CO 80013-3831. Thanks!

- 660 KSKY TX Balch Springs - Per Mike Vanhooser, N5ADU, CB, the station is presently U1 10000/250 while their directional night antenna is undergoing modifications. (BB-MO)
- 740 KTWK CO Colorado Springs - 10/20 2100-2105 - Surprised! Gave legal ID using these CLs into CNN Headline News. Promo *KTWK, the Talk Station*. Change from KSSS and no longer FM K-View. (WB-CO)
- 760 KZXS TX San Antonio - 10/31 2057-2102 - With new talk format with many WOAI mentions (since they now own this one). Actual CLs heard only at :00. (BM-SD)
- 1010 KTUR UT Tooele - 10/25 2038-2045 - Fair-to-poor with CBR with SS music, *La Ponderosa* slogans thru 2045 with EE sign-off by man. New here. Thanks to Jeff Tynan for tip. No Night Operation . . . was listed as running 'til 2300, which may have been during mid-Summer when daytimers run that late. (WB-CO)
- 1220 WIMN MN Stillwater - 10/21 1920 - Good with EZL/adult standards music and *One great song after another on AM 1220 WIMN Stillwater*. Ex: WTCN. On the air after 2 years of being silent. New. (SA-MB)
- KDDR ND Oakes - Now KOVC-1490. *Dakota Country* slogan and C&W music. (BM-SD)
- 1250 KRGD TX Paris - Per phone call received 11/5 1530, the station is temporarily U3 500/500 instead of U3 500/93 while repairs to the remote control system are being made. Midwest DXers should be able to get this one! (BB-MO)
- 1340 KAHS TX Fort Worth - 10/31 1958-2001 - New CLs reflect format change to children's programming. *Radio Ashs* is like 1280 in Minneapolis. (BM-SD)
- 1430 EQLL OK Tulsa - Now is All Sports format, becoming second full-time all-sports station in Oklahoma. WWLS-640 the other. (BW-OK)
- 1500 KXVQ OK Pahrump - Phone # in Log has been changed to one in the 316 area code (Southern Kansas). That number went unanswered today. Station still silent. (BW-OK)
- 1530 KXTD OK Wagoner - Lightning fried the new transmitter and ground system 2 days after installation a few weeks ago. They hope to be back on in 90 days. I have my doubts about that schedule! Still silent. (BW-OK)
- 1570 KMYZ OK Pryor - Haven't heard this station on for at least 3 months. Have driven within 8 miles of Pryor on two occasions in the last 3 months and NOT A PERP heard on 1570. Should be able to hear them even if using low power for some reason. As far as I can tell, KMYZ is OFF THE AIR. (BW-OK)

UNIDs and UNID HELP

- 640 UNID ?? - 10/23 0919 - With fund-raiser chatter, mentions of . . . *our friends in Des Moines*. With WWLS phased. Almost has to be NPR affiliate WOI. (BW-OK)

- 1040 UNID ?? - 10/24 1955-2003 - With ads for books, rolls of silver dollars and lots of 800 phone numbers. Strongest at 2000 with USA Radio Network News, but of course, no ID at top of hour! Best guess is WOKT-KY, the only station on 1040 listed in Log as USA affiliate. (BW-OK)
- 1230 UNID ?? - 10/25 0420 - With ID: *FM 99.9 and AM 1230, K___* (sounded like KCEO). Ideas? (CK-CO) [I'll take KZLO Bozeman, Montana and give you 3 1/2 kHz. The Log sez they simulcast *Fox 99 (99.9)* and KZLO could sound like KCEO thru the Graveyard mush. That's two - Ed.]
- 1290 UNID ?? - 10/25 0322 - Station testing with approximately 800 Hz tone. Looped E/W. (CK-CO)
- 1320 UNID ?? - 10/25 0317 - Somebody testing with 1 kHz tone. Looped N/S. (CK-CO)

NEWS AND VIEWS

Welcome to new member John Hanz of Old Bridge, NJ. John has been with the NRC since October 1! Good to hear from you, John, and let us hear from you often!

John Malicky (trying to win the contest for the most high school football games heard) mentions that WEEP-1080 does power down at night for 2 hours, but he is checking to see what they have been up to lately, this in response to some recent comments regarding them staying on late.

SPECIAL

560 WBEB PA Philadelphia - 11/1 0002 - A very dramatic sign-off, carrier off right in middle of selection! With no ID! Big finish for "Wish"! (DS-DE)
 560 WPHY PA Philadelphia - 11/1 0758 - "First on the dial, first with the good news", now religion! (DS-DE)
 570 WAAX AL Gadsden - Reported received 9/18 in my last report with talk, letter from station says it was not them (no talk shows), so the WAAX I heard must be WNAX, an even better catch! Nice of stations to take the trouble to do this. (DT-JAM)

DX TESTS

620 WTRP GA LaGrange - 10/17 0000-0030 - Strong WSUN, one gospel number heard under them and possible carrier signal, but nothing else. Perhaps! (DT-JAM)
 WTRP GA LaGrange - 10/17 0000-0030 - Not heard, just WSKQ, WHEN and WVMT. (EU-NY)
 670 WYLS AL York - 10/23 0125-0131 - Almost overslept entire show. Did hear code IDs at 0127 Poor-fair through WMAQ and Cuban QRM, but enough for a fairly decent report! (HH-MD1)
 770 KATL MT Miles City - 10/25 0330-0400 - Badly roughed up by WABC and local WJR slop but caught three code IDs, two voice IDs and music. MT #15. (REH-ON)
 KATL MT Miles City - 10/25 0330-0400 - Didn't hold much hope for this one with WABC's transmitter just 60 miles away, but...caught a tentative test tone at 0344, and a weak but definite code sequence at 0350. MT would be a new state for me, but I think I'll wait for a verie before I put another pin in the map. (EU-NY)
 960 WDLN IL East Moline - 11/1 0100 - Not heard, woke up at 0140. (JH-NJ)
 WDLN IL East Moline - 11/1 0055-0110 & 0120-0130 - Not noted. Noted IDs for both WFIR and WPRT (the NRC Log says night power is 25 watts - is this correct?!). Also, presumed Cuban with "RR" code IDs. (MH-NC)
 WDLN IL East Moline - 11/1 - Tried for, nothing heard. Only WWSW slop and WFIR/WERC. (JM-PA)
 WDLN IL East Moline - 11/1 - Not heard, too much Cuban! (DS-DE)
 WDLN IL East Moline - 11/1 0100-0130 - Not heard. (EU-NY)
 1330 WRCA MA Waltham - 10/25 0126-0200 - Copied several code ID periods. All I could get through heavy WWRV QRM. (HH-MD1)
 WRCA MA Waltham - 10/25 0130-0200 - Poor with code IDs, voice IDs, TT. (REH-ON)
 WRCA MA Waltham - 10/25 0130-0200 - Poor on test with voice IDs, TTs and code IDs only marginally audible. Code was pretty fast too. (EU-NY)
 1510 WSSH MA Boston - 11/1 0310-0325 - Good-very good over WLAC and CJRS with code IDs, voice ID announcement: "This is medium wave station WSSH, whiskey, sierra, sierra, hotel, transmitting on 1.51 megahertz...", and tones. Not really needed, as I have heard them in various call letter incarnations: WMEX, WITS, WMRE just to mention a few! (MB-ON)
 WSSH MA Boston - 11/1 0300-0400 - Heard over WLAC, TTs and code IDs better than voice IDs, AM and USB better than LSB, voice IDs and call letters at 0300, 0302, 0311, 0321, 0330, 0334 and 0341. At 0330 Mr. Klein, GM, gave history of station, past and present call letters, transmitter specs and location. (JH-NJ)

UNID AND UNID HELP

- 960 UNID 11/1 0140-0200 - Weak time signal beeps into musical scale tones like do, re, me about every five minutes. Could this have been part of WDLM test not scheduled? (JH-NJ) (More likely it was the Cuban Radio Reloj which is on the frequency with their standard chimes - db)
- 990 WCMF NY Rochester - 9/22 2126 - Is JB-MA's UNID. They are a good station, wish I could pick them up down here. Ex-WNYR/WEZO/WRMM. The Lincoln Group (owners of WHAM and WVOR) bought former *Malrite Group* (WHK) WRMM-FM I believe, so they had to sell the AM station. This station has a fairly new 6-tower DA located in Clarkson, 10-15 miles NW of Rochester. It was built to give then-WNYR-680 relief from CFTR's QRM due to highrise buildings constructed next to the CFTR transmitter site, which beamed CFTR directly towards Rochester. (JK-VA)
- 1000 WTAK AL Huntsville - 9/4 2000 - This is my UNID from Vol. 61, No. 3. In loud on 10/29 at 1924 with peaks way over WLUP, with "The Valley's Voice, 106 TAK FM", commercial for "TAK Night" at some local nightclub, then ROK. AL #4 in VA. (JK-VA)

Mentions of "The Proclamation from the Prophet of God", and "that they will be on the next hour on KXEL and WWVA". I suspect that this one is out of the country? (JK-VA) (Probably Caribbean Christian Radio, Turks and Caicos, see recent IDXD's - db)
- 1590 WEBR? 9/24 0612-0618 - Regarding JB-CT's UNID in Vol. 61, No. 3, obviously the famous WEBR calls have been retired from 970 (*AM Switch* Vol. 60, No. 30), so what would WEBR be doing on 1590? WASB? WAUB? WGGO? (JK-VA)

If any other DXer can get a loop bearing, even a general heading, I would appreciate a note/postcard with your observations. Perhaps we can get a general heading and ID this station! Thanks. (MH-NC)

My experience on the DX Camp sponsored by the Ontario DX Association at Letchworth State Park was disappointing this year. The evening we arrived we were blasted by a November T-storm, and the A-Index hovered around 20 on Friday and Saturday. Only a slight hint of a het on 621 kHz was the best TA I was able to find.

Welcome to Stephanie Kaiser, who with her husband Jean Burnell, submits some fine TA logs, including Slovenia. Jean has a fine report on Paraguay 920. C'mon, Jean, let Stephanie use the loom next time!

Signal weak and copy difficult with no fades for about 10 minutes. By 1706 about gone. Audio possible only on my east sloper. Tried 3 loops, but the only one that even

gave a trace of carrier was the Lankford 2'. Nothing on the KIWA or Thomas. My 3rd country at high noon! [AM-VA]

Not heard in a very long time. [WW-RI] (Likely to be heard more frequently once CJSB shifts to FM - Jim) 11/6 0650 - With CJSB washed out XEWA heard poorly under CBEF with "Super Estrella" slogans. [JR*NY]

590 UNID 11/6 0358 - Poor under R. Reloj in mess with unrecognized anthem. Doesn't match schedules for Colombian or Venezuelan stations. Perhaps a provincial anthem, though. [JR*NY]

- 680 PUERTO RICO probably Radio Guapa (WAPA), 10/11 0200-0203 - Very difficult with two signals in Spanish and CKXG, seemed like a religious program was ending, and address was given, then a woman talked about things in Puerto Rico. [JB-NF]

- 770 COLOMBIA HJIX Bogotá, 10/12 0210 - Very strong over WABC. Spanish talk and music, // to 760 and also 650. [WW-RJ] (Antena Dos 650 should be a separate program, but perhaps for news or political items they are in parallel - Jim)

- 940 BRAZIL R. Brasil Cristo em Casa ZYJ453, Rio de Janeiro, 10/17 0340-0343 - Fading over/under CMB with ad string then really weepy Brazilian ballad or religious song. SIO 232. [JB*NF]

- 1030 BRAZIL unID station, 10/17 0106-0129 - Best at this time mixing with R. Del Plata and WBZ, with religious program "A Voz da Libertação". This one has frustrated me many times! SIO 333-2. [JB*NF]

- 1270 UNID 11/6 0720-0830 - Spanish music heard under R. Reloj, few announcements. For a while I thought it might be Cartagena parallel to RCN Antena Dos 650 kHz, but finally had to conclude it wasn't (though 650 and 1270 line up at the same dial position on the HQ-180). That I heard this the next night when LA conditions were poorer makes me wonder if this is a domestic station. Might this be WSPR? There was no news on the hour, just music at 0200 on 11/7. [JR*NY]

TRANS-ATLANTIC DX

- 594 PORTUGAL Muge, 10/27 2340 - On top of frequency (over Oujda) with pop music. Seemed to be same program as on 666 kHz, but as that's another network, probably just similar music. [BD-PA]
- 666 PORTUGAL Lisbon, 10/27 2335 - Best reception of the season from this one with modern pop music and vocals. Doesn't sound like full power. [BD-PA]
- 684 SPAIN Seville, 10/27-28 2300+ - Armchair signals, mostly talk by man and woman. I'm not surprised

- this station is so consistent (heard regularly now) as their 2 towers sit on a hill west of Seville and point E/W. [BD-PA]
- 693 AZORES Santa Barbara, 10/29 0035 - Very strong and alone on this frequency with Portuguese folk songs and ballads, male and female vocals and instrumental accompaniment. [BD-PA]
- 765 SENEGAL Dakar, 10/29 0058 - One of its infrequent "ups" with music and talk just prior to s/off. Evidently went directional after its early years in the mid-1960s when it sounded like a local sometimes. [BD-PA]
- 783 PORTUGAL Miramar, 10/28 0010 - Nice signal with male speakers and music. Is usually // 1035. This, I believe, is another one gone directional. [BD-PA]
- 828 AZORES Flores, 10/29 0040 - Atop others on frequency with same program (Portuguese folk ballads) as 693 kHz. A tough job pulling audio from noise. [BD-PA]
- 837 AZORES Barossa, 10/29 0045 - Good signal // to but weaker than 693. Still, over others on frequency. [BD-PA]
- 855 SPAIN RNE1 synchros, 10/16 2140-43 - Spanish sports talk. SIO 433. [SK*NF]
- 864 UNIDS 10/16 2132 - Two Arabic stations, one with Koran recitation and the other with talk, both poor SIO 322. [SK*NF]
- 882 CANARY ISLANDS La Laguna, 10/29 2015 - Good signal with man and woman in Spanish discussion. This was the most likely station at a time when others from the eastern Atlantic were doing so well. [BD-PA]
- 891 ALGERIA Algiers, 10/27 2148-2158 - Fair with religious vocals in Arabic; fade out but back in the clear with woman in Arabic apparently doing the news 2205-2210. No interference from any domestic on 890. [MD-MA]
- 891 PORTUGAL Vilamoura, 10/28 0000-0005 - Man in Portuguese and program seemed to be // 1251 kHz. Mixed with Algiers but both stations appeared to be on slightly different frequencies, creating a sort of double het. [BD-PA]
- 900 SAUDI ARABIA Qurayyat, 10/16 2145 - Local-like (really) with Arabic singing // 1521 and 1440. SIO 555! [SK*NF]

- 908 AZORES Angra do Heroismo, 10/29 0030 - Hard to read audio but same as 693 and 837 with Portuguese folk music. Was definitely not on 909 where it's supposed to be. [BD-PA]
- 918 SLOVENIA R. Slovenia, Ljubljana, 10/16 2150 - Fadey signal in Slovenian, man with dramatic talk ... probably a story. [SK*NF]
- 963 PORTUGAL Seixal, 10/29 0110 - Took a lot of listening to pull anything out but got pop music and Portuguese voice on a night when that corner of Europe was on a roll. [BD-PA]
- 999 SPAIN Madrid, 10/27 2350 - Man in Spanish (what else?) with talk show or similar and easily separable from 1000 kHz. [BD-PA]
- 1026 SPAIN SER stations, 10/28 0052 - Fair with musical program and Spanish announcements. Also dominated frequency when I was in London and Paris earlier this year. [BD-PA]
- 1035 PORTUGAL Lisbon, 10/28 0055 - Very, very strong with men talking. Also plays standard pops. This station was heard often in London and Paris, along with Milan and other synchronized Italian stations. [BD-PA]
- 1098 SPAIN (most likely), RNE stations, 10/28 01209 - All alone here at this time, no sign of Nitra, Slovakia. [BD-PA]
- 1125 UNID - I, too, often hear a growl on this frequency, like a jammer. The most likely station to be jammed, I think, would be Deanovec, Croatia, by Serbia, but it is also possible that Libya or Syria is being jammed by someone. While in Europe this year, I heard Belgium, Croatia, Spain and Libya on this frequency, but no jammer. Maybe someone is off frequency. [BD-PA]
- 1251 PORTUGAL Porto or Viseu, 10/28 0050 - Heard // 891 but mixed with Libya and difficult to read. [BD-PA]
- 1259 AZORES Faial, 10/28 0030 - Het only, but on a night when several from Azores coming in. You should hear this het from Portugal's west coast in early morning. [BD-PA]
- 1377 PORTUGAL Porto, 10/28 0025 - Just audible with program that seemed to // 666 kHz. [BD-PA]
- 1431 PORTUGAL Caramulo (perhaps), 10/28 0020 - Some audio but couldn't describe. This may be what I've been chasing on this frequency lately, and not Ukraine. [BD-PA]

- 1440 LUXEMBOURG RL, 10/16 2146 - "Guten Abend ... Radio Luxembourg" (German program) introed Johann Fitzmacher (?). SIO 444. [SK*NF]
- 1467 MONACO TWR 10/16 2123 - German religious program, clear signal! SIO 444. [SK*NF]
- 1503 AZORES? probably AFN R. Lajes, 10/14 2229-2233 - Program from "Corporation for Public Broadcasting", think local announcements from 2233 but it faded away. SIO 232. [JB-NF]
- Ben speaks: "I have always found that reception from that part of the world (Portugal, Spain, Azores) is particularly good in early fall, whereas the north of Europe doesn't peak until the late fall and winter."
- Alan speaks: "Many TA's being heard here but all the same ones being reported by Mark Connelly etc. Will send some in one of these days. Madrid 999 was 10/59 on 10/28 when I phased Chicago. They were completely dominant. 837 Azores/Canaries many nights very good." (Alan is a former IDXD editor! - Jim)

TRANS-PACIFIC

- 738 TAHITI RFO, 10/24 1245 - Very poor with man and woman in French talk. New! [SA-MB]
- 738 UNID, 10/25 1250 - Woman in ?? language into lite instrumental music. Tonga? [SA-MB]
- Shawn also heard hets on 747, 756, 765, 774, 1008 10/24 1230-1255.
- Barry snores: "Based on lack of hets on 738 and 1017 at 1:30 AM local time and a warm sleeping bag, nobody got up in AM to tune. This DXpedition crew desperately needs a morning person!" (How about Howard Stern? - Jim)

STATION NEWS

- CEUTA: A while back I reported a stray Spanish station on 1585.2 kHz, and I also sent word of this to contacts in Finland. Today Jorma Mantyla E-mailed me to say that a DXer in Turku (Pertti Ayraas) had IDed this as Radio Ceuta from Spanish Morocco. It was carrying the SER regional program for Andalucia. [JB-NF]
- GRENADA: Follow-up to Harbor Light "new frequency" of 1405 kHz. It did not last long! I hear nothing on 1405 kHz anymore, but I do hear a religious broadcaster under CBG back on the old frequency of 1400 kHz again. [JB-NF]
- TURKS AND CAICOS ISLANDS: Power is at present 40 kW, future plan is 100 kW with an eventual move to 1570 channel (now that Atlantic Beacon is closed). This information

from Dir. Wendell Seymour at the New Jersey HQ. The station is operating from Grand Turk Island. [DXSF via Play DX #761] (The saga continues! - Jim)
